Cattle Market Report

29TH APRIL 2026 - 1100 CATTLE YARDED

This week's fat sale saw a reduced yarding of 1,100 head, compared to the 1,600-head average over recent weeks.

With the dry seasonal conditions continuing, cattle weights have dropped considerably, and large numbers of cows with their weaners are now coming to market.

There was only a small run of heavy feeder steers and heifers, with that market holding firm. Following the significant drop in the weaner market last week, the weaner job rebounded strongly this week, with both weaner steers and heifers lifting 50-70c/kg.

There was little heavy stock to quote this week, along with a smaller offering of cows. The lead cows lifted 10c/kg, while the secondary run of cows held firm.
